
Important Safety Reminders

- Do not install a tube inside a tubeless tyre on this motorcycle. Excessive heat build-up can cause the tube to burst.
- Use only tubeless tyres on this motorcycle. The rims are designed for tubeless tyres, and during hard acceleration or braking, a tube-type tyre could slip on the rim and cause the tyre to rapidly deflate.
- Do not install a bias-ply tyre on this motorcycle. Mixing bias-ply and radial tyres can adversely affect handling and stability.
- Do not install car tyres on this motorcycle. During installation the tyre may separate from the rim with enough force to cause serious injury or death.
- When replacing tyres, use only the recommended tyres as shown above and on the tyre information label. Use of other tyres on the model equipped with ABS may impair proper ABS function. The ABS computer works by comparing wheel speed. Non-recommended tyres can affect wheel speed and may confuse the ABS computer.
