

Periodic Checks

You should also perform other periodic maintenance checks at least once a month regardless of how often you ride, or more often if you ride frequently.

Also, check the odometer reading against the Maintenance Schedule and perform all maintenance that is due. ➔ P. 59

Tires and wheels	Check the air pressure (➔ P. 72), examine tread for wear and damage (➔ P. 72), and check the wheels for damage.
Fluid levels	Check the engine oil level (➔ P. 80), engine coolant level (➔ P. 86), and brake fluid level (➔ P. 88).
Lights	Check that the headlight, position lights, brake light, taillight, turn signals and license plate light are working properly.
Controls	Check the freeplay of the clutch lever (➔ P. 96), and throttle grip (➔ P. 99). Check the front brake lever (➔ P. 102) and rear brake pedal operate properly.
Drive chain	Check the slack (➔ P. 92), adjust the slack (➔ P. 93), and lubricate (➔ P. 71) as needed.
Fuses	Check that you have a full supply of spare fuses.
Nuts & bolts	Check the major nuts and bolts, and tighten as needed.
